NSTI-ZOHO CENTER OF EXCELLENCE JOINT-CERTIFICATION PROGRAM

CREATE AND OPERATE APPS FOR BUSINESS USING ZOHO CREATOR

1 WEEK PROGRAM | 16TH - 21ST SEPTEMBER 2019 | MON-SAT | 8 AM - 3 PM

**SPECIAL CERTIFICATION COURSE JOINTLY OFFERED BY NSTI-CHENNAI, MSDE, ZOHO & IITK
IN ASSOCIATION WITH SCHOOL OF COMPUTING, DEPARTMENT OF CSE**

**21st Century requires you
to up-skill / cross-skill**

The Zoho production environment is battle-tested and includes the entire tech stack, like the app servers, Databases, Infrastructure, Operating systems, Network security and all of the Platforms and interfaces that make them tick, so you can start building apps right away!

You can build custom solutions using DELUGE in a fraction of the time compared to building a similar app from scratch using Java or PHP or Python.

Zoho Low code - Huge Career Opportunities.

- Internet Apps**
 - Building Apps quickly to improve core functions like production, planning, HR, sales/marketing and financial reporting
- Customer Facing Apps**
 - Build sophisticated solutions with rich UX / UI / CRM, Security and mobile experiences that are shared to customers.
- Legacy App Replacement**
 - There are huge wealth of old code across many orgs. With low-code upgrade these systems for modern approaches.

You as an individual can easily create an app using Zoho Creator that many businesses / people can use.

**It does not take a village
to develop an application
anymore...**

Why learn Zoho Creator?

Easily transform your 'ideas' into apps.
Build business automation apps.
Publish Apps and Earn while you learn.
Become a technology enabler.
Become visible to recruiters.
Get a higher entry salary.
